Brush/Tree Limb Collection Service Reminder

Service Provided to Residents on Monthly Basis

SEGUIN, Texas – As many residents begin Spring cleaning, the City of Seguin wants to make sure information about brush/limb collection is readily available. The following information is provided as a reference for Seguin citizens who will be utilizing the brush pick-up service.

Brush collection entitles each resident to 15 minutes of brush/tree limb pick-up during your area's scheduled collection week. There is no charge for the first 15 minutes of collection. If collection takes longer, the customer will be contacted about a quote to pick up the remaining debris. The quote will be based on equipment use, time and route.

Brush/limbs must be out by 7am on the Monday of your designated week to ensure pick-up. Brush service shall be provided to each applicable residential and commercial premises once per month. A schedule is provided on the Public Works page of the City's website.

Brush/limbs should be cut and stacked neatly at the edge of the customer's street curb or edge of the paved street if garbage service is normally provided on a city street adjacent to the customer's premises. If garbage is serviced in an alley, brush should be placed at the property line adjacent to the customer's premises. Please do not block any portion of the alley

or place brush/limbs in the street. Brush will not be picked up at another location and in no case shall Brush Department crews enter private property to cut or remove brush debris.

Brush shall be limited to five feet in length, 12 inches in diameter and no more than 40 pounds in weight for any single branch. Brush/limbs must be separated from logs.

Brush collectors will NOT remove the following items:

- Mixed piles (garbage or lumber)
- Yard trimmings (leaves, grass, etc.) These items should be bagged for garbage pick-up.
- Banana plants, palm tree/leaves, cactus or bamboo. These items must be bundled or bagged for garbage pick-up.

A pickup schedule has been established and generally includes four city pickup zones. The schedule is available on the Public Works page of the City of Seguin website. Questions about the schedule, inquiries about quotes for large piles and other questions can be directed to Public Works at 401-2416.

About the City of Seguin

Seguin, Texas is located along Interstate 10, about 35 miles east of San Antonio. Seguin is big enough to boast a top-rated university and a state-of-the-art hospital. More than 25,000 residents enjoy a range of cultural, recreational, and employment opportunities. Seguin's robust diversified economy features a steelmaker, a manufacturer of automotive parts and plants making roadside mowing equipment and building materials. In 2009, Seguin was proud to be selected by Caterpillar as the site of a major new engine manufacturing facility.
